You are able, and encouraged, to customize the program to best leverage your available learning time. In addition, you have the opportunity to complete your MBA in one year—as an undergraduate business major taking advantage of the College’s 4+1 program—or up to six years of part-time study.

Depending on your interests, you will choose from among four areas of concentration: accounting, general management, health services management, or pharmaceutical industry.

FACULTY: The faculty possess excellent academic and professional credentials, along with significant practical work experience in various disciplines at domestic as well as international venues.

EMPLOYMENT: Faculty and Center for Career and Academic Planning staff work closely with students to provide individual career coaching.
